

HYDROSILA

HYDRAULICS YOU CAN TRUST

Gear flow dividers

GD2K-series

GD2K

Technical specifications

- Size - Group 2
- Number of sections from 2 to 6
- Displacement 6 ... 25 cm³
- Max. continuous pressure up to 250 bar
- Maximum intermittent pressure up to 280 bar
- Flow error $\pm 4\%$
- Fluid working temperature range from - 20°C up to + 85°C

Features

- Build-in valves available
- Cast iron or aluminum alloy covers
- GAS or SAE threaded ports
- Low noise level

Application

- Construction machinery
- Agricultural machinery
- Lifting and transporting equipment
- Utility vehicles
- Industrial equipment
